SUSTAINABILITY RAP COMPETITION

PROJECT APPROACH AND PARTICIPATION

This project offers flexibility in its implementation and can be undertaken in several ways, including as a homework assignment, a class-wide project, an extra-curricular group activity, or led by a team of enthusiastic volunteers.

PUPIL INVOLVEMENT

- 🌱 Literacy: Pupils will focus on writing a rap text that goes beyond the traditional '3 Rs' theme, encouraging creative exploration of sustainability topics.
- 🌱 Music: The written rap will be set to appropriate rhythms and beats, allowing participants to engage with musical composition and performance.
- 🌱 Design Technology (DT): Optionally, students may up-cycle household items to create musical instruments, either pitched or percussion, which can be incorporated into their performance.
- 🌱 Movement/Dance: Pupils are encouraged to add movement or dance to their performance, ensuring they present with confidence and attitude.

It is recommended that schools visit the Eco-Schools website to explore various aspects of education for sustainability that could be included in their rap.

PERFORMANCE GUIDELINES

- 🌱 A maximum of eight pupils should participate in a well-rehearsed rap performance, ideally during a form or school assembly.
- 🌱 The performance should not exceed 90 seconds in duration.
- 🌱 The performance must be video recorded, either during the assembly or separately without an audience.

SUBMISSION PROCESS

Schools are required to send both a copy of their rap text and the polished video performance for judging to **schoolssustainabilityconferences@btinternet.com** by **11th June 2026**.

SHORTLISTING AND FINAL PERFORMANCE

- 🌱 Shortlisted schools will be notified of their success prior to 18th June.
- 🌱 Those selected will perform in front of the conference delegates during the afternoon session.

HAVE FUN!
